Visualising Future Spaces

Global service, remote access — Design without borders.

MDP
INTERIOR DESIGN

I don't create
I solve your space

from sketches to 3D renderings,
I deliver worldwide.

Darren Phang

Hi, I'm DARREN PHANG , a 3D Interior & Architectural Designer from Malaysia.

I graduated from Chung Yuan Christian University in Taiwan with a degree in Interior Design and have over 10 years of experience in the design industry.

I specialize in creating 3D visualizations using SketchUp, Enscape, D5 Render, and can deliver 3D animation, 360 virtual tours, and detailed floorplans.

I focus on space planning, realistic 3D visuals, and offer services for:

- Residential & Commercial Interiors
- Office Spaces
- Exterior Architecture
- Construction Drawing Sets

Everything can be done remotely — no physical meetings required.
As long as you provide clear project info and are open to communicate,

I'll make sure your ideas are fully visualized and understood.
